WHAT WE OFFER

Three Flexible Training Options Tailored to Your Community

In-Person Training & Skills Checks:

Homebridge delivers engaging, in-person instruction for IHSS providers in partnership with counties. Trainings are available in English and Spanish and customized to local community needs, with schedules co-developed to fit county timelines and provider availability.

Self-Paced Content:

Homebridge provides county IHSS providers with exclusive access to self-paced courses through private learning channels. These 30 to 60 minute courses - available in English, Spanish, and Chinese - are selected collaboratively to align with local needs.

Live Online Instruction:

Homebridge will offer live 90-minute training sessions through the online community, open to up to 50 providers per session. Topics will cover core caregiving courses, and sessions will be offered in English and Spanish, with plans to add Chinese. Providers can register and attend directly through the platform. Homebridge may vary the weekly schedule to maximize participation and engagement.
